

Hello, my colleagues,

My name is Dong Ye and I would like to serve you on Academic Council.

I have been at NAIT for ten years taking roles from learning technology specialist to CMIS (Management Information System) instructor. The cross-department experience has indeed broadened my understanding of the **ever-changing roles of an instructor** at NAIT.

We are now witnessing the unsettling development of COVID19. And we will possibly experience a more profound impact on the economy and society in months or years to come. This is a time full of challenges and uncertainty. This is also a time we need **strong faculty participation** in the institute's governance.

I have been nominated to run for NASA representative on Academic Council. I would like to make sure that the **interests and expertise of NASA members are heard** by the council and therefore inform the direction of the institute.

Please consider voting for me.

Dong Ye
